

An Overview of Mechanically Sealed Pumps

Educational Services

*Flowserve is pleased to announce:
An Overview of Mechanically Sealed Pumps*

September 22 – 23

*Flowserve Quick Response Center
1020 Davey Rd., Unit 100
Woodridge, IL 60517*

Don't miss this practical training seminar hosted by the industry's leading training experts.

- Discussions on centrifugal pump components and their failure modes
- A review of mechanical seal principles and their functions
- An overview of operating practices to ensure safe and reliable operation
- Demonstrations using a Flowserve unique clear acrylic pump to view cavitation and the effects of off-peak operation
- Discussions on pump and seal failures with hands-on review of failed components

Who should attend:

- Plant operators
- Maintenance personnel
- Reliability specialists and engineers
- Plant engineers

Register online now.

- The cost for the two-day event is \$495.

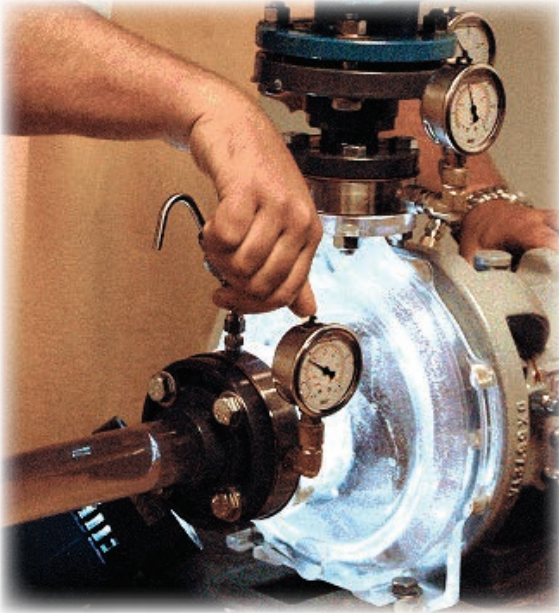

Registration includes:

- Attendance to the two-day seminar
- Course material book
- Lunch on both days
